The charges associated with this service covers additional costs involved in securing these products. Catering will continue moving toward this as our standard. Most menus will require some level of menu customization when choosing low waste to assure there is no undo waste generated. Low waste events require a minimum of 3-4 weeks advance notice and must be coordinated with ARISTA Catering. Please note, biodegradable utensils do not have the strength of regular disposables and are not recommended for all menus.

Multiple Entree Services:

A multiple entrée is two or more different entrées offered on a plated menu. Assigned seating is the easiest and most accurate method for serving multiple entrées. If you desire this service, we recommend that each guest is assigned a place and a color coded dot is put on the place card indicating the guests' entrée selection. A less accurate alternative to assigned seating is for each guest to be given a color-coded ticket to indicate their entrée selection when they arrive at the registration table. The guest must place the colored ticket near their

water glass to indicate the entrée selection to the wait staff. Please allow additional service time for multiple entrées.

Meals with Limited Time for Service:

You should allow approximately one and one half hours for a full service plated or buffet meal. If time is limited, we recommend that the salad and/or dessert be preset prior to your guests being seated. If speed is of the essence, avoid choosing multiple entrée service for your meal as it does take longer. Most importantly, if you only have limited time for your meal service, please indicate this on your order so catering staff can be prepared.

Receptions:
